

GOUTAM 'rudra' PRASAD

GRAPHIC DESIGNER
WEB DEVELOPER

" A Creative Full-Stack Developer committed to translating conceptual design into a polished, high-functioning product. Specializing in Next.js, React, and TypeScript—the modern standard for JavaScript development—I architect robust, high-fidelity digital experiences. "

" My foundation as a Graphic Designer ensures every application is visually captivating and prioritizes UI/UX excellence. By leveraging AI-assisted coding to accelerate development, I consistently deliver a scalable, minimalist, and engaging user journey."

" Design focus. Code performance. "

EDUCATION

PRIMARY SCHOOL

Kendriya Vidyalaya, Adra | 2012-2017

SECONDARY SCHOOL

Kendriya Vidyalaya, Adra | 2017-2019

DTP/GRAPHIC DESIGNING

NISPL | 2019

AUTODIDACT WEB DEVELOPER

Mastered advanced front-end architecture using Next.js/React and TypeScript, alongside back-end technologies (Node.js/MongoDB). Demonstrated expertise in continuous, self-directed learning and project delivery, leveraging AI-assisted tools for accelerated development. | 2023-Present

SKILLS

TECHNICAL

DEV TOOLS

Core Languages

- JavaScript
- TypeScript
- HTML5
- CSS3

- Git / GitHub
- Zed / VS Code
- HTTPie
- Vercel / Netlify
- Figma

Frameworks

- React.js
- Next.js

- Canva
- Photoshop

Backend & Database

- Node.js
- Express.js
- MongoDB

Styling & Visualization

- Tailwind CSS
- GSAP (GreenSock)
- Framer Motion
- Three.js

LANGUAGES

- English (Fluent/Professional)
- Hindi (Fluent/Native)

PROJECTS

AM I HERE OR NOT [NextJS/TS]

[Code](#) / [Demo](#)

Am I Here or Not? is a high-contrast, editorial-style photo gallery and creative manifesto built with Next.js. This project explores experimental photography and self-inquiry through a dynamic, magazine-inspired design.

MEMOIR-VERITAS [NextJS/TS]

[Code](#) / [Demo](#)

Memoir-Veritas is a Single-Page Application (SPA) portfolio built for professional photography showcase. Engineered for seamless, fast navigation and enhanced with GSAP-driven page transitions to create a highly polished, cohesive user journey.

FINANCE FLOW [ReactJS/JS]

[Code](#) / [Demo](#)

Finance Flow is a Full-stack financial management application built on the MERN stack (MongoDB, Express.js, React, Node.js). Engineered a secure RESTful API for efficient CRUD operations and leveraged React to present an intuitive, dynamic user interface. The system delivers insightful reports and dashboards for effective personal budgeting and expense tracking.

SYLVAN COUTURE [JS/GSAP]

[Code](#) / [Demo](#)

Sylvan Couture is a visually engaging landing page designed for a high-end brand, achieving a unique aesthetic through HTML, CSS, and vanilla JavaScript. Features production-quality motion design and complex scrolling interactions engineered with the GSAP animation library.
